StoneLux®

THE LOOK, FEEL & QUALITY OF NATURAL STONE

The Stone Range

A stone effect paint available in 65 natural stone shades. Specially formulated using real ground stone to provide an authentic alternative to natural stone in both texture and appearance.

The StoneLux Stone Range gives you the ability to apply a durable and lightweight stone finish to virtually any surface.

Applications

A high-performance coating providing a cost effective and lightweight alternative to natural and cast stone for all construction, commercial, retail and domestic projects.

- **Building Facades** - give commercial and residential building exteriors a hard wearing and weather resistant stone effect finish.

- **GRP & GRC** - give GRP and GRC products the look and feel of stone. Lightweight and cost effective.

- **Stone Repairs** - repair chipped, cracked and discoloured stone & cast stone. No need to remove and replace, saving time and money.

- **Architectural Mouldings** - give wood, MDF, concrete & plaster mouldings and columns a stone effect finish in minutes.

- **Art** - sculptures, landscaping, statues, plaques & displays.

- **Shop Fitting** - display & point of sale.

- **Interior** - suitable for walls, ceilings & furniture.

Benefits

Authentic

Our unique and exclusive ground stone formulation gives you a truly authentic stone finish which looks and feels like natural stone.

Durable

Gives a very hard-wearing and UV stable finish that does not crack, flake, peel or blister.

Lightweight

A lightweight alternative to natural and cast stone. Ideal for application onto GRC, GRP and almost any lightweight

Weather Resistant

Provides a weatherproof finish which resists water and mildew. A unique breathable yet non-porous formulation.

Quick

Quick drying to aid efficient production times. Easy to apply using a brush, roller or spray. Simply use straight from the

Cost Effective

A cost effective alternative to natural stone. Reduces your material, application and installation costs, thereby increasing your profits.

Environmentally Friendly

Environmentally friendly. Waterbased. Low VOC, virtually odourless. Simply cleans with water.

Easy to Use

Preparation

- Ensure substrate is clean, sound and dry. Repair any damage with a suitable filler.

Brush/Roller Application

- Apply Primer allowing 1 - 3 hours to dry depending on conditions.
- Apply Stone Coating in multiple thin coats, do not try to cover in one application. Allow each coat to dry before applying the next.

Spray Application

- Apply primer.
- Apply Stone Coating in multiple thin coats. Ensure each coat is touch dry before applying the next.
- Use a texture gun with a 2.5mm-5.5mm nozzle at various psi settings for a heavy finish.
- Use a gravity fed gun with a 2mm-3mm nozzle at approx. 60psi for a finer finish.
- Can be diluted using up to 15% water.
- Circulating warm air will reduce drying times.

Bespoke Colour Matching

As the UK's leading manufacturer of stone effect coatings we are able to offer a custom colour matching service (minimum order quantities apply).
